EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

On page 3, in line 2 of paragraph 0011, change "retracted" to --closed--.

On page 6, in line 1, delete "and the disclosure of which is hereby incorporated by reference".

In claim 24, line 6, change "said housing" to --said fixed member--.

2. The following is an examiner's statement of reasons for allowance:

The primary reason for the allowance of claim 1 is the inclusion of claim 1 of the limitations directed to the latching system being operable to *directly* couple the first hardtop roof panel and the second hardtop roof panel together in response to movement of the first hardtop roof panel from the opened position to the closed position. The movement of the roof to the closed position provides the motion for coupling. The primary reason for the allowance of claims 7 and 24 is the inclusion of the limitations directed to a first linkage, a second linkage,

and a third linkage, and a retaining member pivotally coupled to the third linkage, the retaining member further being pivotally coupled to a lost motion coupling. The primary reason for the allowance of claims 18 and 23 is the inclusion of the limitation directed to the crank member being pivotally coupled to a first hardtop roof panel, the crank member being operable to move between a first position and a second position when the first hardtop roof panel contacts a fixed member. The prior art of record does not disclose or suggest such limitations in combination with the rest of the limitations of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
